

Town of Lexington Town Meeting 2021

Article 28: Amend Generals Bylaws – Reduce Noise from Landscaping Equipment

The Noise Advisory Committee and the Select Board received complaints from landscapers that the committee had not done adequate outreach to landscapers for their input before putting forward Article 28. In response to that criticism, the committee voted unanimously to request that the Select Board IP this article.

The committee is currently working on additional outreach. Feedback received from landscapers and residents will factor into an article brought to a future Town Meeting.

The Select Board unanimously approves indefinite postponement of this Article.
